

Grant management

Women and Children First

Women and Children First is a world leader in supporting communities to come up with answers for global problems facing women, children and young people.

Since 2001, we have delivered over 40 projects, in 13 countries, supporting over 5,000 communities and saving over 6,000 lives – and counting.

Tools

Our support tools include:

- MNH tool, which can successfully improve mother and newborn health and survival. This approach is recommended by the WHO.
- FP tool, which can successfully improve family planning.
- PMTCT tool, which can promote HIV prevention activities during pregnancy, delivery and after birth..

Grant management

Women and Children First is experienced in managing grants from a range of institutional donors and trust and foundations including:

- Big Lottery Fund
- Comic Relief
- Positive Action for Children Fund
- UK Aid

www.womenandchildrenfirst.org.uk

Our grants

We build strong, long-term partnerships with leading local NGOs. We manage grants to and build capacity of these NGOs. We are small, creative, efficient, and highly experienced.

Technical Assistance

Women and Children First

Women and Children First is a world leader in supporting communities to come up with local answers for the global problems facing women, children and young people.

Since 2001, we have delivered over 40 projects, in 13 countries, supporting over 5,000 communities and saving over 6,000 lives – and counting.

Our services are:

Tailored and delivered to build the capacity of our partner organisations in the design, implementation, management and evaluation of the community support tools. We are small, creative, efficient, and highly experienced.

Tools

Our support tools include:

- MNH tool, which can successfully improve mother and newborn health and survival. This approach is recommended by the WHO.
- FP tool, which can successfully improve family planning.
- PMTCT tool, which can promote HIV prevention activities during pregnancy, delivery and after birth..

Technical Assistance services

Women and Children First is experienced in providing technical assistance to partners seeking to successfully support communities to tackle global problems. We offer a high quality package of assistance – short-term or long-term – which can be delivered as a sub-grantee and consultant.

www.womenandchildrenfirst.org.uk
